MEMORANDUM FOR: Chief, USAF Element (NPIC)

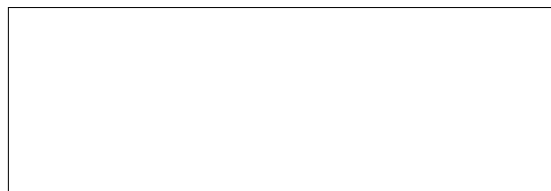

SUBJECT: Team Assistance at the Processing Site

REFERENCE: TCS-12823-62-KH

1. This matter was discussed at the Operations Board meeting of 29 August 1962. It was agreed that each of the Service/Agency Detachments would provide, on a rotating basis, a man to go to Eastman Kodak as part of the USAF Team to assist in obtaining data necessary for AFIC to produce the CMCI.

2. Since the CIA/PAD (NPIC) has provided an individual the last two missions (9040 and 9041) they will not be required to provide personnel for this assignment until each of the services (Navy and Army) have both been represented twice.

3. It is agreed that NPIC will arrange for the travel of these personnel and pay for such travel.
